## CHESTIONAR

### Studiu de orientare școlară și vocațională a elevilor în domeniul utilizărilor digitale

#### Dear Participant

This research is a part of REMEM Project (Click me, if you forgot/ Erasmus + KA2 Adult Education) which is coordinated by Pamukkale University and supported by the European Union and Turkish National Agency. According to the following questions' answers, the project team is aimed leading at preparing a book about the care of Alzheimer's patients and the problems experienced by their relatives. This book will cover information to help you and your patient deal with some problems. You will then be able to obtain this book for free, both in print and on the internet. Depending on the amount of information you have in answering these questions, put a tick in the box below each level, one of the levels None, Low, Medium, and High. Your answers are completely confidential and no one will know, including researchers, about who provided this information. The study is based entirely on your voluntary participation.

Thank you for answering this survey.
