Faculty of Sciences

Coordinator :  
assoc.prof.dr.BOCA Gratiela Dana  
North University of Baia Mare

**Abstract:** *E-Learning does not exist apart from already established and traditional learning venues. As new technology is introduced and adopted, it immediately becomes integrated with the instructional technology that preceded it. This is called "Blended Learning" or "Hybrid Learning" delivery. We are blending old and new instructional methods, and more technically we are blending a sequence of both synchronous and asynchronous learning events. Blended Learning aims at orchestrating an effective composition of learning experiences. Instructional design has a long history of "blending" classroom work with homework, field trips, labs, reading assignments, and audio-visual media. However, what is new in this era of blended learning are the powerful modes of online synchronous and asynchronous activities and technology-based instructional methods which can now be added to the mix.*

**Keywords:** *blended learning, knowledge, online synchronous, asynchronous activities.*

### **A NEW PROVOCATION ON TECHNOLOGICAL PROCESS – QUALITY SIMULATION AND MODEL PRODUCT IN INDUSTRIAL PROCESS**

Student  
Ramazan SATICI,  
Suleyman BOLAT  
Karabuk University, Turkey  
Supervise: assoc.prof.dr. Gratiela Boca  
North University Baia Mare  
Romania

**Abstract:** *The new problems on global market bring a wind of changes in our lives, as well in technology, in environment protection, the future provoke us to find immediately solution and identify new sources for industry.*

*The solution to this problem is the improvement of quality management of enterprises and also of products which must be designed taking into consideration the protection of environment. From this point of view we have to change the total quality management.*

**Keywords:** *improvement quality, iceberg quality costs, virtual simulation, model product design, low design product.*

**MIGRA IA FOR EI DE MUNC**  
**STUDIU DE CAZ: ROMÂNIA**

Studente :

Georgiu Cristina Alexandra

Iona Andreea Maria

Universitatea de Nord Baia Mare

Facultatea de Stiinte

Coordonatori :

Conf. univ. dr. Coman Adela

Lector univ. dr. Boca Gra iela

**Abstract :** *Revolu ia tehnico- tiin ific contemporan a transformat educa ia i formarea profesional a for ei de munc într-una din problemele esen iale ale dezvolt rii economice si social-politice. Pentru a ne putea familiariza cu termenul migra iei este necesar o definiere etimologica a termenului migra ie sau migra iune, care vine din latinescul: migratio, -onis cu diferite sensuri pe care însemn tatea cuvântului în sine a avut-o în istorie: "deplasare în mas a unor triburi sau a unor popula ii de pe un teritoriu pe altul, determinat de factori economici, sociali, politici sau naturali; migrare"...sau cu sensul: "deplasare în mas a unor animale dintr-o regiune într-alta, în vederea reproducerii, a c ut rii de hran etc.*

**Keywords :** migra ie, revolu ia tiin ific , valul migra iei românilor

**A NEW CONCEPT FOR COMPARING BETWEEN HIGH SCHOOL**  
**EDUCATION IN ROMANIA AND TURKEY**

Student

Bayram Kılınç

Habip Uyar

Afyon Kokatepe University

Turkey

Coordinator : assoc. prof.dr. Ihsan Cemil DEMIR

assoc.prof.dr. Kerim OZKAN

Afyon Kokatepe University

Turkey

**Abstract**

The aims of these schools are to secure a level of general knowledge, develop an awareness of individual and community problems and to contribute to the economic,

social and cultural growth of the country as well as preparing students for higher education.

**Keyword:** education, management, economical growth

### **ARE WE READY FOR MANAGEMENT CARRIER ?**

Student  
Birtoc Adelina  
North University Baia Mare  
Faculty of Sciences  
Romania

**ABSTRACT:** *An individual's career orientation is important when we compare it to the profession which he has. Compatibility of the two resulting consequences for individual behavior and attitudes for his service and for his state of balance and satisfaction. It is essential that individual to carefully choose their profession, need to think long term that would more specifically, what are the specific types of organizations, opportunities, opportunities to exploit natural potential, there may be a difference between perception of what that profession outside, and actually implying.*

**Keyword:** individual carrier, management carrier, new provocation.

### **PROFESOR VS. CALCULATOR**

Roxana Lavinia BUIE  
Universitatea de Nord Baia Mare  
Facultatea de tiin e  
Profesor coordonator : BOCA Gra iela  
North University Baia Mare

**Abstract :** *Computer, will never replace teachers in all actions, but to ignore his role and importance that's means to oppose normality. The need access to information, there is a need computer use in schools, at least to ensure equal opportunities in education. The possibilities of information processing and computer storage it offers, are opportunities to improve teaching in all disciplines act education . On the one hand, constant incitement to reconfigure computer image that we have about fields of knowledge - access to sources of information, gives extra knowledge in quantitative terms but also in qualitative terms. Thus become better prepared and professional and methodological.*

**Keywords:** computer, teacher, new trend in education.

**SOLUTION FOR ECONOMICAL CRISIS**

Smid Edith  
Master student  
North University Baia Mare  
Faculty of Sciences

Coordinator :  
assoc.prof.dr.BOCA Gratiela Dana  
North University of Baia Mare

**Abstract:** The number of poor people could grow to 13 million by 2010. At the same time, we know that most of the poor people are women. This fact is alarming since it is estimated that in the previously described context, unemployment among women will increase significantly. This reality demands us to consider in the discussions and decisions about the crisis, as well as in the solutions to survive and overcome it, that the impact of this reality is different on men than on women. The impact is more profound and considerable for women. This is a result of various factors. In spite of the region's increasing participation of women in the labor market, it does not necessarily translate to formal employment, good pay, and with the conditions that characterize a "decent job". On the contrary, in addition to its low productivity, low social recognition, and lack of minimum social welfare benefits, most jobs are precarious, informal, low-paid and unsafe, concentrating on domestic services or extensions of it.

**Keywords:** *women role, entrepreneurialship, equal chance*

**A NEW CONCEPT BETWEEN HIGH SCHOOL EDUCATION IN GREECE AND USA**

Students:

**HOW WE CAN IMPROVE QUALITY IN  
MANAGEMENT EDUCATION**

Ec. Daniela Elena BIRTOC  
Master student  
North University Baia Mare

**ABSTRACT:** *În sfera evoluției teoriilor și modelelor manageriale, reflectăm drumul spre maturizarea conceptuală și aplicativă, spre posibilitatea clarificării extinderii conceptului de „management” și în domeniul educației. Cercetările în știința managementului, au confirmat că sfera sa de cuprindere este vastă, conducerea fiind un atribut al oricărei activități conștiente. Dar prioritățile s-au conturat mai ales în câteva zone până acum: economic, social-politic, administrativ, științific, învățământ, cultur, apărare și familie. Așa se explică dominarea și relativă clarificarea a conducerii în învățământul (colii) la diverse niveluri, aspirând ulterior la abordarea managementului modern la nivelul instituției, al colii (conducerea colii ca organizație), doar că, în învățământ este, la rândul lui, integrat acum la nivel de macrosistem, el fiind factorul instituțional principal. Dar managementul poate fi și la nivel de microsistem, al activităților educative concrete.*

**Keyword:** arta managementului, știința managementului, știința conducerii în educație.
